

# SHADE® Designed by Jacob Jensen

Perspective, creativity, innovation, understanding - Timothy Jacob Jensen

# SHADE® design

## Designed by Jacob Jensen

Every generation has its pioneers. People who with trailblazing initiative change our idea of the world. We see it in the arts, science and in our own everyday life.

Jacob Jensen is such a trailblazer in our time. During the past 50 years, he has contributed to our understanding and appreciation of how things we are surrounded by can be. Through an original, simple, and today, classic form language, Jacob Jensen has shown people all over the world that a numerous of products used in our daily life, can contain a quiet beauty.

# Design and technology

The SHADE® design by Jacob Jensen guarantees the versatility to install a storage system in virtually any location - even in the heart of today's modern office. Through the fusion of stylish design and cutting-edge technology, Bruynzeel provides a comprehensive range of multi-purpose storage solutions, which successfully satisfies the diverse needs of an equally diverse range of private and public sector organisations throughout the world.

1. SHADE® design - Electronic Solution
2. SHADE® design - Mechanical Solution
3. SHADE® design - Static Solution

Compactus® Dynamic Pro XTR. Intelligent storage with SHADE® design.

Compactus® Original XTR SHADE®. No less visibly impressive and incorporates a similar stylish design which will suit any location.

Sysco® static storage system. Completes the range, has an equally sleek style and utilizes the same high-quality basic components.

# Choosing quality with a sustainable touch

Choosing Bruynzeel means quality is guaranteed.

To make sure you get the best possible storage system our products comply with recognised international quality standards, awarded by independent experts in the field. The RAL certificates awarded for our products are your guarantee for performance and reliability.

Your storage solution is made in our factory in the Netherlands, according to ISO 9001 and ISO 14001.

World-class manufacturing tools and methods implemented in our facilities allow us to produce your order with great precision in thousands of different configurations. We use mainly oil-free steel to minimise our impact on the environment by eliminating the need for detergents and cleaners. Our powder coating process guarantees a 100% coating with epoxy powder, so no corrosion can occur.

We would be delighted to assist you in achieving your sustainability goals by offering you durable products and space-saving concepts.

# Exceeding expectations in service

Every Bruynzeel Storage solution comes with top-notch technical support. We go the extra mile to make sure you get the most out of your Bruynzeel system.

## **Expert advice**

Get the rundown on all the dos and don'ts of your system from a Bruynzeel service engineer in training groups of up to eight users.

## **Key User training**

Make the most of your storage solution by designating a "Key User", trained and supported by Bruynzeel. If further assistance is needed the Key User can directly contact our service staff.

## **Service contracts**

For ultimate peace of mind we offer a range of service contracts, covering parts, labour and callout charges.

A Bruynzeel service contract guarantees your premium storage solution will receive the very best care from trained service engineers. Our star services are carried out by dedicated staff who take pride in the upkeep and maintenance of your system throughout its lifetime.
